

Example to illustrate functions

```
function int,int func1(int a = 1, int b = 3)
{
    function int func2()
    {
        return 3;
    }

    a = func2();
    return b,a;
}
```

```
Main()
{
    int x,y;
    x,y = func1(b=5);
    Bot bot;
    fw bot,x;
    fw bot,y;
}
```
